WE ARE 150!

Dover College is celebrating its 150th anniversary in 2021! Located on the idyllic site of a medieval monastery, Dover College opened its doors to boys in 1871.

Girls first joined the College in 1974 and the College became one of the first English public schools to be fully co-educational. We are also proud to have the oldest international faculty in the country.

WHY CHOOSE US?
