

ENGINEERING & MANUFACTURING

How can you make a start on your career during your time in secondary school?

1

LEARN & EXPLORE

- Focus on subjects like Maths, Physics, and Design Technology.
- Try free online courses in engineering principles, CAD, or manufacturing processes.

2

GAIN EXPERIENCE

- Participate in school projects or clubs related to robotics or engineering.
- Look for part-time jobs or internships in manufacturing or workshops.

3

DEVELOP SKILLS

- Practice problem-solving and critical thinking.
- Learn to use technical tools and software like CAD programs.

4

NETWORK & CONNECT

- Attend engineering fairs or workshops.
- Join online communities for engineers and manufacturers.

5

PLAN FOR THE FUTURE

- Research careers in mechanical, electrical, or civil engineering.
- Explore college programs or apprenticeships in engineering and manufacturing.
