

HEALTH & SCIENCE

How can you make a start on your career during your time in secondary school?

1

LEARN & EXPLORE

- Focus on subjects like Biology, Chemistry, and Health Science.
- Try free online courses in healthcare, research methods, or public health.

2

GAIN EXPERIENCE

- Volunteer at hospitals, clinics, or research labs.
- Look for part-time jobs in healthcare settings or as a lab assistant.

3

DEVELOP SKILLS

- Practice critical thinking, data analysis, and communication.
- Learn about laboratory techniques and patient care protocols.

4

NETWORK & CONNECT

- Attend health and science career fairs or workshops.
- Join online communities for healthcare professionals and researchers.

5

PLAN FOR THE FUTURE

- Research careers in medicine, nursing, or biomedical research.
- Explore college programs or apprenticeships in health and science fields.
